FROM THE EDITOR

It is my great pleasure and honor to have been appointed as the Editor-in-Chief of the Untold Magazine. To be the editor-in-chief of a publication like this is a very demanding but enjoyable responsibility. As an editor I am required to improve quality and make future plans for the journal, and especially to make sure it is recognized as an outstanding publication on an international plan. All these requirements and responsibilities oblige me to be ready for hard, systematic and long-lasting work, as only such attitude may result in continuous publication of the journal, and constant quality improvements.

At this point, please allow me to briefly introduce myself.

I am an Industrial and Interior designer (BDES) and a Photographer (BA). My principal educational and professional activities have been focused on those two fields. I am a multiple award holder in both of my fields of expertise and published in numerous media. During my professional life, the past twenty years, I have learned that only hard work is the safest way to success. I currently own my own renovation company and at the same time I lead a large team of persons that occupied in video and photography production mostly in events and clips. For the past two years I hosted and tutored more than forty-five photography and videography workshops in Greece and internationally. For the past years I have been looking for a way to express myself through creativity and came across with so many people seeking for the same

thing. That is what lit the spark of the creation of a publication that achieves that. Untold Magazine is a publication for photographers and models, from photographers and models inspired by the voices of the creators, more specifically, of the multitude of voices that are contained within our community. It is about the stories, told but mostly untold. It is about the moment after the flash but mostly before it, where sometimes often, things do not look so polished and shiny.

Making photographs? Untold Magazine is for you! Whatever it may be, we hope you find your creative niche with us. Anyone is welcome to submit their work for publication on our website or print. Use our website to read stories from our wide range of contributors and check out our "Featured story" a regular column pointing you to interesting reads and images.

As a publication, we have set standards regarding the posting of any kind of harmful or hateful material. Our intention is to host a platform for all artists to tell share their stories, and creative works. That is why we exist.
